

# How To Set Up Your MT4 Account

## Welcome To The Team

Welcome, you've now come to set-up your MT4 account, hard right? No problem, follow the below!

The BROKER you signed up with should have supplied you your MT4 LOGIN DETAILS via EMAIL. Check both your inbox and junk folders please!

If you haven't...

Go to the broker website and LIVE CHAT with the broker. They should supply you with your login details. They will most likely call you, to confirm you're the correct holder of the account.

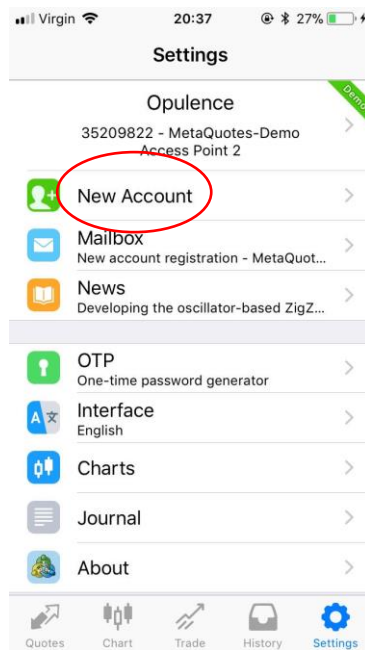

Right, let's get started... (Android and Apple may differ... but it's very similar!)

- 1) Homepage – Once you download META TRADER 4 via the APPSTORE, you will come to this page. You now click 'settings' in the bottom right corner.

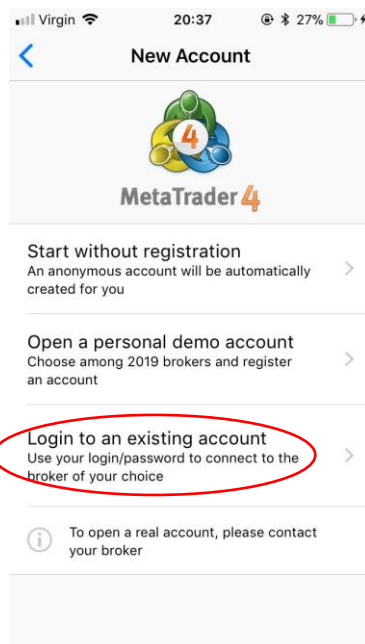

USD	
Balance:	100 000.00
Equity:	100 000.00
Margin:	0.00
Free margin:	100 000.00
Margin level (%):	0.00

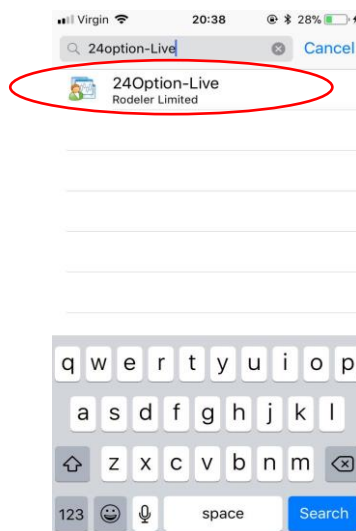

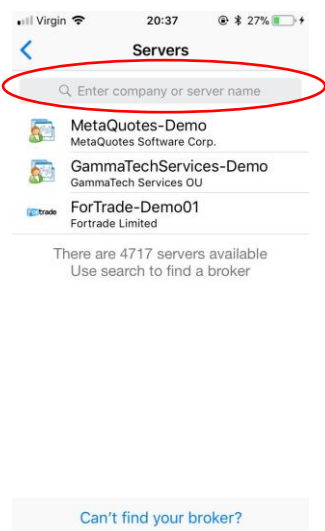

2) You now click 'New Account'.

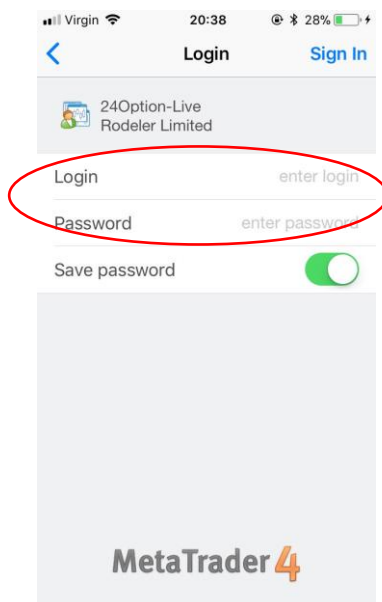

3) You now click 'Login to an existing account'.

4) You now enter the 'server' name given to you. Let's use 24option as an example! (The server name is supplied to you by the broker). Then select your Server!

5) Enter your login details and you're all set to go!
